Intelligent and Easy Document Processing

Productive, Versatile & Intuitive Folder Inserter

The **DS75i** combines unparalleled ease of use with advanced technology. With it's compact footprint, large loading and unloading capabilities, and features like CIS scanning technology, the **DS75i** can process a wide variety of mailpieces for direct marketing campaigns, invoicing, monthly statements and many other applications. The **DS75i** can be connected to your network and you can benefit from unique services such as remote assistance and remote diagnostics to provide help when needed. Easy to use via it's full-colour touch screen and unique intuitive navigation, and extraordinarily quiet, the **DS75i** fits perfectly into any work environment.

Optional Features

Automate Your Document Processing with OMS-200 Software

Neopost's Output Management Software simplifies and automates your document creation process. So you can:

• Automatically add a barcode giving more value to your documents and guaranteeing your mail integrity with secure control marks
• Select inserts from multiple trays maximising your options
• Split your print file based on the number of pages

Monitor, Secure and Verify Your Mail Production Output with OMS-500 and AIMS-500 Software

Neopost offers you the assurance that your printed jobs are accurate, complete and have actually been mailed. Output Management Software (OMS-500) applies a unique Job and Mailpiece ID to every document. Each mailpiece is reconciled real-time as it's inserted against a database using AIMS-500 technology. This provides you with real-time quality control and detailed reports:
• 100% verification of job completiong
• Real time failure detection of missing mailpiece
• Reprint Loop for missing or failed mailpieces
• Reporting on individual jobs, performance and trends

Complete Content Control and Security You Can Rely On

With its Contact Image Sensor (CIS) scanner technology, the **DS75i** can read any type of coding such as OMR, OCR, 1D barcodes and 2D data matrix codes. And the code can be printed anywhere on the document. The scanner reads the full A4 page and the barcode can be read horizontally or vertically. This unique feature provides full flexibility to fulfill any layout requirement.

Automated Stacker
The high-capacity vertical stacker holds up to 500 finished envelopes

Touch Screen Display
Full-colour 7" touch screen enables navigation easily to create a new job or access existing jobs within seconds

CIS Scanner
The scanner can read any type of coding printed horizontally or vertically in the document

Document Feeders
Process multiple page sets at high processing speeds of up to 975 (3 x 325) documents using the 3 standard feeders; all feeders can be used in cascading mode and have paper sensors which ensure the operator is constantly informed on how to proceed to run the system

A State-of-the-Art Graphical User Interface

Designed for all users, the intuitive, full-colour, high-resolution 7" touch screen provides a wizard-based user-friendly interface, making it easy for anyone to select and run their folding and inserting jobs.

Alternatively, see how easy it is to create a new job using our exclusive Load'n'Go intuitive procedure. Simply load your documents and envelopes and then press the start button. The **DS75i** will automatically measure the length of all loaded documents as well as the envelope in order to adjust all settings and process the appropriate mail items.

Easy Operation   Cost Saving   Efficient   Innovative

Optimise Productivity with the MaxiFeeder Tray

Choose to load the MaxiFeeder with up to 325 BRE or load up to 1,200 sheets to maximise your productivity.

Smart Solutions to Maximise Flexibility

The exclusive FlexFeed® tray enables you to process any document size or type. In combination with the unique semi-automatic envelope separation mechanism, this provides full flexibility for feeding a wide variety of document types. You can use practically any size and type of material to address your prospective and current customers efficiently.
